#### Focus:

Are you tired of the same old drawing activities? Does drawing take you out of your comfort zone? Do you wonder how to assess your students drawing? Do your students ever tell you they just can't draw?

This course aims to introduce teachers and those working with primary school aged children to drawing activities that will inspire, excite and build confidence in both teachers and learners. We will be exploring alternative drawing activities that focus on expressive mark making, understanding the potential of different materials and observing objects in a whole new way.

Cost: £50 for this session only or £80 for both sessions.
