Year 3 Homework Week 1 Spring 1

### **English**

In English, the children have been recounting their Greek Workshop in the form of a comic strip.

### **Spellings/Grammar**

We have focused on the suffix's 'ed', 'er' and 'ing'. For more information please follow the link:  
<https://www.bbc.com/bitesize/articles/zwgbcwx>

### **Reading**

Please share Greek myths that you enjoyed as a child – please also feel free to share myths that originate from other cultures too.

We highly recommend 'Greek Myths by Geraldine Mccaughrean', however there are plenty of other brilliant Greek myths books available.

Reading diaries are due in on Thursday when we visit the Library: Please encourage your child to write a short comment themselves about the book/ story they have read.

### **Maths**

This week, we have been working on finding out the perimeter of given shapes.

### **Geography**

Geography day is on the 1st February. Each year group in the school will be researching and presenting information to another year group about a chosen country. In Year 3 we will be looking at Greece and relating it to our topic work.

Additionally, your child may like to complete their own Geography activity, this could be a poster about any country but it would be wonderful if the children had a link to that country. We will also be celebrating different languages the 21<sup>st</sup> of February for 'International Mother Language and children may wish to share any other languages they speak at home.

Thank you for your continued support.

The Year 3 team
