

Key Word Games

We have now finished all of our red key words (sometimes these are also called high frequency or sight words) and it's time to consolidate their learning. We have found some activity ideas for you to do at home. Please adapt these to things that you have at home, don't feel like you need to purchase anything to make these games e.g. you could use a kitchen spatula instead of a plastic hand for the splat game or recycle an old bottle by putting a hole into the lid and making your own water pistol.
