

Bonjour les enfants ! Comment ça va ?

This week we have planned 2 activities for you to do during the week to start to learn the numbers up to 31 in French!

Do you remember how to count up to 10? Now you are going to discover even more numbers and spot repetitions and patterns.

Remember: Don't do the two activities in one go! It's better for your long-term memory that you practise French few times a week.

Activity 1: Lesson 5 - Les Nombres

We would like you to explore the following activities on the [High Five website](#). Remember to always have parental supervision when you are on the internet.

Watch the following video : [Video Lesson 5](#) - Les Nombres .

To help you practise, your parent can read the [Vocabulary List 5](#) and [Notes for Teachers 5](#).

Activity 2: Practise – Les nombres

Listen to the [Radio Show 5 Radio Show](#) and let us know how interesting and accessible you are finding it.

As an extension, can you say numbers in French each time you think of a number?

I hope you will enjoy this week's activities! Have a good week!
