

Bonjour les enfants!

This week we would like to introduce you to [High-Five](#). It is a bilingual course featuring lively and enjoyable video and audio materials, activity sheets and challenges to encourage pupils to develop their confidence in speaking and understanding French.

Please ask your parents to create an account, the enrolment is free.

Remember to always have parental supervision when you are on the internet.

This week we would like that you explore **Lesson 5- les nombres**, but first of all there is a fun video to watch as an [introduction](#). If you can, don't do all the activities in one go! It is better for your long-term memory that you practise French a few times a week.

Activity 1:

Watch the [Video Lesson 5](#) and read [Lesson Transcript](#).

To help you, you can use the [Vocabulary List](#).

Activity 2:

Listen to the [Radio Show 5](#) and let us know how interesting and accessible you are finding it. Then practise the vocabulary learnt using the [Activity Sheet 5b](#).

As an extension, can you say numbers in French each time you think of a number?

I hope you will enjoy this week activities!

Have a good week!

Madame Grégoire et Madame Chadier
