

Hello all,

Below are the **optional** Home Learning Projects for this half term.

For this term's home learning, we would like the children to create a project which focuses on an aspect of our Topic 'Stone Age to Iron Age.' The children could focus on a particular part of this era or they can cover the whole of the era.

History

We would like the children to create a project which focuses on an aspect of our Topic 'Stone Age to Iron Age.' The children could focus on a particular part of this era or they can cover the whole of the era.

Some possible ideas are:

- Build a model of a Stone Age/Bronze Age or Iron Age settlement.
- Create a time line for the Stone Age/Bronze Age and Iron Age
- Create a PowerPoint presentation about an aspect of this time period

Science

- Design a menu for a balanced meal that includes the main food groups
- Create a fact file on vertebrates and invertebrates

English

Have a go at some creative writing. Follow the link below to watch a video stimulus. They are some ideas of writing genres you could do but the choice is yours!
