

Number formation chants

0		Zero, zero, nothing to it! Circle round I can do it.
1		I can make a one for you, straight line down and now I am through.
2		Start up high, rainbow bright, down the slide, straight line right.
3		Half a circle, back up then, half a circle once again.
4		Make an L, and then for fun, one line down and now you're done.
5		Down, around, give it a hat, that's a five just like that.
6		Start on top and circle round, loop-de-loop the bottom down!
7		Make a straight line towards your friend, down the slide and that's the end.
8		Make an 'S' but then don't stop! Draw a line from bottom to top.
9		Draw a circle up on top, straight line down and then you stop.
10		One comes first and zero then, that is how you make a 10!
