

Autumn 1 Home learning Project: Ancient Benin

For this half term home learning project, we would like you to create a 3D model of one aspect Ancient Benin.

This could be: a model of one of the Benin bronzes; Benin city or a Benin mask. You could use cardboard, clay or cloth or any other materials you find at home. You are welcome to work with a partner or with friends on this topic.

Alternatively, you could create a presentation on one aspect of Benin.

Please bring into school by
Monday 16th October
