

Autumn 2 Home learning Project: Islam

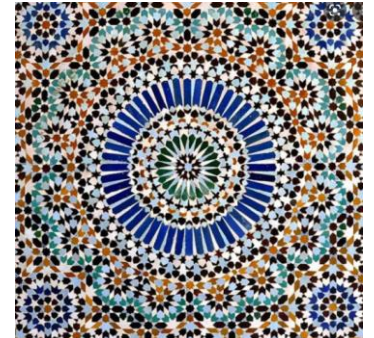

For this half term, your home learning project is to create a 3D model related to an aspect of Islam.

This could be a model of the five pillars of Islam or a model of a Mosque or an Islamic art tile or some Islamic geometric pattern art.

Alternatively, you could create a presentation on some aspect of Islam.

3D models of the 5 Pillars of Islam

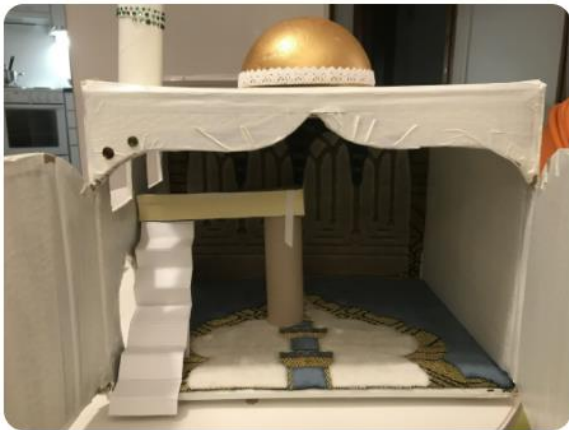

clay and painted Islamic tiles

3D models of a Mosque

Please bring in all projects into school by Monday 27th November
